

CASE STUDY

Agricultural Site Subgrade Reinforcement - Swamp Grid™ Geogrid

- ▼ **LOCATION:** Bredenbury, Saskatchewan
- ▼ **PROJECT TYPE:** Supply
- ▼ **PRODUCT USED:** Swamp Grid™ 30 biaxial composite geogrid

▼ **PROBLEM:**

Owners of a 5-acre agricultural yard site located in Bredenbury, Saskatchewan required an upgrade to their existing site.

▼ **THE TITAN SOLUTION:**

Titan supplied 68 rolls of Swamp Grid™ 30 to our client to help improve site conditions and ensure the long-term performance of the subgrade. Swamp Grid™, (a combination of our Titan Earth Grid heat-bonded to a long-fiber PET nonwoven geotextile) improves the overall structural life of the subgrade, which reduces maintenance costs for the client.

▼ **ACHIEVEMENT:**

Titan was the preferred choice for this project due to our advanced all-in-one solution provided by the Swamp Grid™ 30, our competitive pricing, and our ability to deliver the supply within the client's desired time frame window.
