TE-10
10oz CIVIL NONWOVEN GEOTEXTILE

TITAN
BUILD YOUR LEGEND

Titan has provided the containment and erosion control industries with the highest quality geotextiles available. Our nonwoven needle punched geotextiles are manufactured using polypropylene fibers, which are formed into a dimensionally stable network which allows the fibers to maintain their relative position. These products resist ultraviolet deterioration, rotting, biological degradation, and are inert to commonly encountered soil chemicals.

TESTED PROPERTY	TEST METHOD	UNIT ENGLISH (METRIC)	VALUE ENGLISH (METRIC)
Grab Tensile	ASTM D 4632	lbs (N)	250 (1110)
Grab Elongation	ASTM D 4632	%	50
CBR Puncture Resistance	ASTM D 6241	lbs (N)	650 (2890)
Trapezoidal Tear	ASTM D 4533	lbs (N)	100 (444)
Permittivity*	ASTM D 4491	1/sec	1.2
Water Flow*	ASTM D 4491	gal/min/ft² (l/min/m²)	80 (3251)
Apparent Opening Size (AOS)	ASTM D 4751	US Sieve (mm)	80 (0.150)
U.V. Resistance	ASTM D 4355	%/hrs	70/500
TYPICAL ROLL DIMENSIONS			
Roll Dimensions		ft	15 x 300
Roll Area		yd²	500
Estimated Roll weight		lbs	320

NOTES:
MARV. Minimum Average Roll Value.
Maximum average roll value ASTM D 4751- AOS.
Mullen Burst ASTM D 3768 has been removed. It is not recognized by ASTM D 35 on Geosynthetics.
Puncture ASTM D 4833 has been removed. It is not recognized by AASHTO M288 and has been replaced with CBR Puncture ASTM D 6241.

*At the time of manufacturing. Handling may change these properties
