

NEWS RELEASE

New Eastern Region Branch For Titan Opening in Chatham, Ontario

April 2026

Titan Environmental is proud to announce the upcoming opening of its newest branch in Chatham, Ontario, scheduled for April 2026. This will be the company's 9th location across North America and a key addition to its Eastern Region operations.

The Chatham location offers strategic access to one of Canada's largest markets, strengthening Titan's ability to support infrastructure and environmental projects throughout Ontario. The new branch is expected to play a central role in expanding service capacity for stormwater management, erosion control, and civil construction solutions.

Craig Chinnick will lead the Chatham branch as Branch Manager, Eastern Region, reporting to Wes Anderson, Regional Manager, Eastern Canada. With extensive industry experience, Chinnick will oversee day-to-day operations and client engagement.

"I'm thrilled to be leading Titan's newest branch in Chatham," said Chinnick. "This location offers tremendous potential, and I look forward to building strong relationships with our clients and partners throughout Ontario."

Titan's expansion into Chatham reflects continued growth and a long-term commitment to supporting sustainable development across Canada. The Chatham branch will be staffed by a dedicated team of professionals and equipped to meet the evolving needs of Titan's clients.

About Titan Environmental

Titan Environmental is a recognized leader in geosynthetics and specialty civil engineering products across North America. The company supplies, installs, and fabricates materials designed to support sustainable infrastructure.

Its product portfolio includes solutions for stormwater management, soil stabilization, and erosion control. These materials are widely used in sectors such as transportation, mining, agriculture, oil and gas, and hydroelectric development.

Titan is known for its practical, results-driven approach. The team works closely with clients throughout a project's lifecycle to get the job done right.
